Futon Association International Found Lady Luck Good To Them In Las Vegas

Orlando (FL) - The Futon Association International is heading back to Las Vegas as part of the World Market Centers January 2006 show. After the success of the July 2005 Market FAI is expecting even greater demand for the space in January.

"We had exhibitors asking us for the January lease at the July market," stated Brian Donohoo, FAI President. "We expect the January market to have even more buyers as retailers will be able to get a way from their stores easier at that time of year."

The FAI has leased 20,000 square feet at World Market Center and will sublease this space to its members. The Futon Expo & Specialty Sleep Show will be located right next to the Specialty Sleep Association space.

"We are excited to be adjacent to SSA as we are a natural extension of each other. Many of our exhibitors sell similar products and many of our buyers shop their products and vice versa," states Donohoo. "This will make one stop shopping for this category."
